Allison,

Just to ensure we all have the same text, I've copied what I believe is the latest below and cc'd all those who are acting on this. If this is okay, we'll proceed with your action list:

- 1) Email to Sacc members
- 2) Web goes live- How is that going, Steve?
- 3) Listserv goes out.

April 27-30, 2020, TSCA Science Advisory Committee on Chemicals Meeting on Asbestos POSTPONED

EPA is postponing the Toxic Substances Control Act Science Advisory Committee on Chemicals (SACC) peer review virtual meeting scheduled for April 27-30, 2020, due to recent changes in the availability of members for this peer review. Given the importance of the draft risk evaluation for asbestos, the Agency believes that rescheduling for a time when more members are available is critical and will allow for a more robust review of the evaluation. As a result, the SACC meeting will be rescheduled as soon as practicable. The Agency will issue another announcement once the new dates for the SACC meeting on asbestos have been determined.

While the Agency does not anticipate extending the written public comment period on the draft risk evaluation past the June 2, 2020, due date, as needs arise EPA will review and respond appropriately. All written comments received by June 2nd will be provided to the SACC for their review prior to the meeting. Once EPA has selected a new date for the meeting, the Agency will provide an update on public commenting, including registering to provide oral public comments during the SACC meeting. EPA remains committed to completing this process as expeditiously as possible.

You will continue to find information about the SACC meeting, and links to related documents, on the TSCA SACC website at <https://www.epa.gov/tsca-peer-review/peer-review-draft-risk-evaluation-asbestos>.

Right. I think we need the following sequencing to happen:

- 1) Email to Sacc members
- 2) Web goes live- How is that going, Steve?
- 3) Listserv goes out.

+ Hayley

Allison and all,

There will also be oral public comments during the rescheduled SACC meeting. Therefore, I suggest the follow tweaks (in green) to Cheryl's language:

While the agency does not anticipate extending the written public comment period on the draft risk evaluation past the June 2, 2020 due date, as needs arise EPA will review and respond appropriately. Once EPA has selected a new date for the meeting, the agency will provide an update on when comments must be submitted in order to be considered by the SACC. In addition, the agency will provide an update on registering to provide oral public comments during the SACC meeting. EPA is working through the potential impact postponing the peer review will have on finalizing the asbestos risk evaluation and remains committed to completing this process ~~in~~ as expeditiously as possible

+ Angela , Mark and Yvette

Alex and David- The due date for comments to be considered by the SACC is April 22. Cheryl flagged to me two important issues that may warrant further consideration in our draft message: the comment period and how this will impact the final RE.

Cheryl suggests replacing the original two sentences regarding the comment period with the following to give us a bit more wiggle room should we decide to extend the comment period in light of the SACC meeting occurring at a later date (unless we are certain that need all public comments by April 22 no matter when we hold this postponed meeting, even if it is in Late May/June/etc). Thoughts? -Allison

While the agency does not anticipate extending the public comment period on the draft risk evaluation past the June 2, 2020 due date, as needs arise EPA will review and respond appropriately. Once EPA has selected a new date for the meeting, the agency will provide an update on when comments must be submitted in order to be considered by the SACC. EPA is working through the potential impact postponing the peer review will have on finalizing the asbestos risk evaluation and remains committed to completing this process in as expeditiously as possible

Subject: For Alex or David Review- Draft Listserv re SACC Mtg

I believe Alex may be busy this afternoon taping various remarks so I am asking if Alex or David can review this time sensitive

draft message we would like to issue regarding the postponed meeting. In addition to issuing an OPPT Listserv this afternoon, we would also post this language on our website, issue a tweet, and send a note to the SACC members and ad hoc reviewers.

April 27-30, 2020, TSCA Science Advisory Committee on Chemicals Meeting on Asbestos POSTPONED

EPA is postponing the Toxic Substances Control Act Science Advisory Committee on Chemicals (SACC) peer review virtual meeting scheduled for April 27-30, 2020, due to recent changes in the availability of members for this peer review. Given the importance of the draft risk evaluation for asbestos, the Agency believes that rescheduling for a time when more members are available is critical and will allow for a more robust review of the evaluation. As a result, the SACC meeting is being postponed to later in 2020. The Agency will issue another announcement once the new dates for the SACC meeting on asbestos have been determined.

There is no change to the public comment period for the draft risk evaluation of asbestos, as announced in the *Federal Register* on April 3, 2020 (85 FR 18954). All comments must be received on or before June 2, 2020.

You will continue to find information about the SACC meeting, and links to related documents, on the TSCA SACC website at <https://www.epa.gov/tsca-peer-review/peer-review-draft-risk-evaluation-asbestos>.
